

The Houston Museum of Natural Science's

## **Bugs on Wheels**

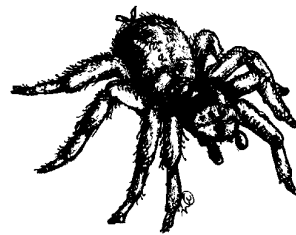

educational outreach program

allowed

Kindergarten and 1<sup>st</sup> Graders to experience

**"Amazing Arthropods."**

This program brings a selection of living insects and other arthropods into your classroom for hands-on presentations. Giant millipedes, hissing cockroaches, camouflaged walking sticks, furry tarantulas and more amaze students and turn them on to the incredible world of arthropods

Presented by the Cougar Pride Drive
