

## HANDS-ON SCIENCE VOLUNTEERS NEEDED

Fifth grade uses Hands-on Science a little differently than the other grade levels. All fifth graders are required to do an individual project at school so we spend 2 days just conducting experiments. We have the other grade levels help us out by using their students as subjects. Parents' main responsibility is to help the students monitor their subjects while they conduct their experiments.

We would like volunteers on **Jan. 14<sup>th</sup> and 15<sup>th</sup>**. This is how it is set up:

**9:30-11:00** Lambert, Pearson, and Taylor need parents to help (These are our am homeroom science classes).

**1:15-2:45** Lambert, Pearson, Taylor and Howard need parents (These are parents from their pm or switch classes. Howard will only need parents in the afternoon both days because she is self contained).

### **Switch teachers:**

Lambert/Steger

Pearson/Hartsfield

Taylor/Mercadal

Howard-self contained

All parents will report to the first teacher on the list of switch teachers because they are the science teachers.

Please contact Bhavna Bindal@ [rbindal@aol.com](mailto:rbindal@aol.com) if you would like to sign up to volunteer or have any questions about this program.
